

Someone got stuck working late on my birthday
Someone missed a flight and the wedding and the cake
Someone said they'd be at the family reunion
Then finally got a job that just could not wait
Been trying to get us all together
Since last year 'round this time
Come November, come December
Hope you'll be with yours like i'll be with mine

CHORUS

We gather, make it a holiday
We gather, travel safe we pray
Peace on Earth, Peace of mind
We spend quality time, We gather

Someone's got an Aunt flying in from New York
Someone's got a Niece on a train from South Bend
Someone's got friends who'll drive for hours
'Cause there's always a place at the table for them
Been trying to get us all together
Since last year 'round this time
Come November, come December
Hope you'll be with yours like i'll be with mine [CH]

BRIDGE

Some join us in spirit, with a bird's eye view
As we keep up the tradition, like they'd want us to

CHORUS

We gather, make it a holiday
We gather, travel safe we pray
Peace on Earth, Peace of mind
We spend quality time, We gather
Best Wishes,

Bruce
